

THE 2010 SURFACE WATER TREATMENT WORKSHOP

April 27 - April 29, 2010
Ramada Plaza Suites
Fargo, ND

PRESENTED BY MNAWWA, NDAWWA, AND SDAWWA

CALL FOR PAPERS

Minnesota, North Dakota and South Dakota AWWA request abstracts for both verbal and poster presentations for the 2010 Surface Water Treatment Workshop.

This regional conference presented by MNAWWA, NDAWWA and SDAWWA will provide current technical, process and operational information to engineers, scientists, municipalities and end users of surface water treatment facilities. The technical sessions at the 2010 Surface Water Treatment Workshop will include all topics related to surface water in Minnesota, North Dakota and South Dakota.

DATES TO REMEMBER

Abstracts Due	September 30, 2009
Notification of Acceptance	October 16, 2009
Presentations Due	March 31, 2010

TOPICS MAY INCLUDE:

WATER TREATMENT & TECHNOLOGY

Advanced Oxidation
Taste & Odor Removal
Membrane Technology
Green Technology
Cold Water Treatment
Disinfection
Residuals Management
Softening Technologies

EMERGING ISSUES

Nanotechnology
Organic Compounds
PCPs/EDCs

DISTRIBUTION

DBPs
Nitrification
Chlorination
Bacterial growth
Storage technologies

WATER RESOURCES

Water Reuse
Supply Management
Sustainability
Source Water Protection
Invasive Species

REGULATORY & ADMINISTRATIVE

Future Regulations
LT2
Stage II
Revenue Adequacy
Water Conservation

The presentation selection committee will view quality of the abstract as an indication of the quality expected in the presentation and final manuscript. Review of the abstracts will be based on the following criteria:

- Relevance to the theme of the conference and the theme of the individual session(s)
- Significance of the work to a broad audience
- Technical content
- Originality of the work, including new concepts, innovations, or data

To submit an abstract for a presentation or poster, send an electronic copy to Bo Johnston at Black & Veatch by September 30, 2009.
